SCOTTISH GOVERNMENT PLANNING PERMISSION No FFR/ABC/032

SCHEDULE OF CONDITIONS

Condition 1

Subject to Conditions 2 and 3, the equipment shall be as set out in the application and submitted plans and the site operator shall operate the development in accordance with the provisions of the application, submitted plans and all supporting information.

Reason: To ensure that the appropriate mitigation measures, strategies and procedures detailed in the application are implemented in continuing to operate this site.

Condition 2

In the event of equipment falling into disrepair or becoming damaged, adrift, stranded, abandoned or sunk in such a manner as to cause an obstruction or danger to navigation, suck works (including lighting, buoying, raising, repairing, moving or destroying the whole or any part of that equipment) as may be needed to remove the obstruction or danger to navigation must be carried out.

Reason: In the interests of navigational safety.

Condition 3

The cage group known as Kames Bay West shall not be used for the holding of either salmon or trout until such time as a consent has been obtained from the Scottish Environmental Protection Agency for the deployment of sea lice treatment at levels appropriate to meet recognised industry standards for the biomass to be held. Those species shall only be held whilst such a consent remains in place.

Reason: In the interests of nature conservation given that the holding of such species for short-term periods may give rise to potential consequences for wild salmonids.
