Dear Tony

Housing Improvement Task Force first report

I refer to your letter dated 19th March 2002, enclosing a copy of the first report of the,

Housing Improvement Task Force, ***Issues in Improving Quality in Private Housing.***

We have circulated the report and a summary of the key issues that it identifies within the Council and wish to acknowledge and support the work that has been carried out by the various sub-groups of the Housing Improvement Task Force.

We are aware that the national issues that the Task Force have identified are relevant and equally apply to the situation Perth and Kinross and we would welcome any opportunities for further consultation in the next stage of developing recommendations for action to address these issues.

We welcome the work that is being carried out to address the issues of private sector improvements and repairs, particularly in properties with shared or common repair and maintenance obligations.

We look forward to receiving further reports of the progress being made,

Bill Grigg
Area Renewal Manager
