SCOTTISH MANUFACTURED EXPORTS ESTIMATES FOR THE SECOND QUARTER OF 2001

Seasonally adjusted export sales in current prices by Scotland's manufacturing sector totalled £4.823 billion in the second quarter of 2001, according to provisional estimates released today by the Scottish Executive.

Scottish Manufactured Exports – 1995 Q1-2001 Q2

Year	Quarter	Scottish Manufactured Exports At 1995 Prices (£ Billion)	Scottish Manufactured Exports At Current Prices (£ Billion)
1995		15.883	15.883
1996		16.914	16.636
1997		20.386	18.953
1998		20.724	18.058
1999		22.202	18.504
2000		22.720	18.275
1999	1	5.719	4.848
	2	5.587	4.704
	3	5.412	4.506
	4	5.484	4.446

	2	5.622	4.526
	3	5.816	4.630
	4	6.009	4.865
2001	1	6.153	4.948
	2	6.044	4.823
% chg latest qtr on preceding qtr		-1.8%	-2.5%
% chg latest 4 qtrs on preceding 4 qtrs		10.2%	8.6%

NEXT PUBLICATION DATE: 23 JANUARY 2002 (Provisional)

A Scottish Executive National Statistics News Release

The main findings are:

- The level of export sales by the manufacturing sector increased by 10.2 per cent in real terms in the year to 2001 Q2, compared with the previous 4 quarters. In current prices, there was an increase of 8.6 per cent.
- In 2001 Q2, the level of export sales decreased by 1.8 per cent in real terms, compared with the previous quarter. In current prices, there was a decrease of 2.5 per cent.
- Total manufactured exports (in current prices and seasonally adjusted) were £4.823 billion in 2001 Q2, compared with £4.948 billion in the previous quarter.
- In 2001 Q2, the Electrical and Instrument Engineering sector accounted for £2.981 billion, or 61.8 per cent.

NOTE TO NEWS EDITORS

1. Estimates of Scottish Manufactured Exports are compiled on the standard industrial classification SIC92.
2. The data presented for Scottish Manufactured Exports measure sales of goods produced by the Scottish Manufacturing sector for export outwith the UK. The Office for National Statistics collects the data used to produce these figures in their Monthly Production Inquiry. The data are deflated to 1995 prices using UK export producer price indices, which are also produced by the ONS.
3. In the latest release, the data are seasonally adjusted. The basic series that are seasonally adjusted are Textiles, Footwear, Leather & Clothing, Drink, Electrical & Instrument Engineering and Other Manufacturing Industries. This means that direct comparison between successive quarters is now possible for these industries and the combined series. EAS have developed systems to seasonally adjust the series in line with standard National Statistics practice.
4. Estimates of Scottish Manufactured Exports are based on a sample of just under 800 Scottish manufacturing exporters in an average quarter. This sample covers all sizes of unit across manufacturing industry.
5. The data published in this news release are based on 1995 prices and current prices. Due to the availability of updated information and small changes in the seasonal factors there have been some revisions to the Scottish Manufactured Exports published on 18 July 2001. Tables 5-8 show revisions to the estimates previously published.
6. Provisional figures for Scottish Manufactured Exports in 2001 Q3 are provisionally scheduled to be published on Wednesday 23 January 2002.
7. National Statistics are produced to high professional standards set out in the National Statistics Code of Practice. They undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from any political interference.
