FORM 3 CONSULTATION QUESTIONNAIRE

Please use this form to respond to the consultation questions. This will help us to understand clearly which part of the consultation your comments relate to.

We have listed below each question asked in the consultation in order starting at Volume 1 and provided space for your comments. Some of the questions are general and refer to the whole volume. Where questions are specific to a particular part of the volume, we indicate the page number for your ease of reference. We have provided additional space at the end for you to make general comments about the guidance as a whole if you wish.

You may respond in writing using this form, or if you require more space for your answers, you can access an electronic version of the form at www.scotland.gov.uk/consultations/current. For organisations: it would assist us greatly in analysing the responses if you could send a single, consolidated response which takes account of all relevant interests in your organisation.
