Smoking in Public Places

RESPONSE FORM

1. **Having considered the health risks associated with passive smoking, do you think that further action needs to be taken to reduce people's exposure to second-hand smoke?** *(Please tick on box only)*

Yes

No

Don't Know

Please provide any other comments here

2. **Would you support a law that would make enclosed public places smoke-free? (Public places include workplaces and public transport)** *(Please tick one box only)*

Yes

No

Don't Know

Please provide any other comments here

The University has reviewed their Smoking Policy and introduced a No Smoking Policy within all buildings. There is an exception related to the fact our bar areas are in direct competition with adjacent city centre premises.

A complete non smoking workplace would only be tenable if a Law was introduced.

3. If a law was introduced, do you think there should be any exemptions to it? (i.e. any enclosed public places where smoking should be allowed) *Please tick one box only*

Yes

No

Don't Know

Please provide any other comments here

4. If we decide not to introduce a law, what more could be done to encourage individual businesses to take voluntary action to become smoke-free or to provide more smoke-free provision? *(Please tick one box only)*

Please provide any other suggestions here

The provision of financial support in relation to smoking cessation programmes. Incentives to food and drink businesses that choose to operate no smoking establishments, such as reducing the tax on alcohol.

5. What else could we do to reduce people's exposure to second-hand-smoke?

Please provide any other suggestions here

Examine and research the standards with a view to making improvements in extract ventilation provided within areas where people are permitted to smoke.

6. Please let us know about any other views you have about smoking in public places

By excluding people from smoking within buildings, people now congregate around the entrances to workplaces. This draws complaints from those required to walk into the building and those with windows opening in the vicinity of doorways. This matter should be given full consideration as part of this consultation process.
