

Scottish Executive Environment and Rural Affairs Department

Regulation (EC) No 1774/2002 of the European Parliament and of the Council of 3 October 2002 laying down health rules concerning animal by-products not intended for human consumption

The Animal By-Products (Scotland) Regulations 2003

Approval of technical plants

In accordance with regulation 14 of the Animal By-Products (Scotland) Regulations 2003 and Article 18 of Regulation (EC) No 1774/2002 the Scottish Ministers approve as technical plants

- (a) all operators and premises currently registered under the Animal By-Products Order 1999 to use premises for the production of pharmaceutical or technical products from animal by-products; and
- (b) all tanneries.

It is a condition of approval that tanneries must apply to the Scottish Executive Environment and Rural Affairs Department for continued approval before 1 January 2004, and failure to do so shall invalidate this approval.

For each premises this approval ceases to apply either when those premises are inspected and an Approval is either granted or refused, or on 1 January 2004, whichever is the earlier.

This approval operates from 1 October 2003.

Dated 30 September 2003
