

REQUEST FOR VMS DATA UNDER THE DATA PROTECTION ACT 2018

VMS data is regarded by the Scottish Government as 'personal data' therefore any requests for VMS data are dealt with under the terms of the Data Protection Act 2018.

If you are not the owner of the data then you will need the data owner's permission. This is the owner of the vessel on which the VMS unit is installed.

Requests must be made in writing so, if you wish, you may use this form to submit a request for VMS data. It should then be sent to your local Fishery Office (<http://www.gov.scot/Topics/marine/Compliance/fishoffices>) where we will perform checks to confirm the ownership of the vessel during the period VMS data is requested for.

This is to ensure that the data is only released to individuals authorised to receive it. Therefore, if a request is made by someone other than the owner of the vessel at that time, that owner will need to give their authority to release that data to someone else. This can be done either by completing Section C of this form or providing another form of written consent e.g. a signed letter of authority, which can be submitted with the request.
