Water Temp (°C): Thermometer No: FHI 045 completed

Observations: Region: HI Water type: S CoGP MA M-14

Dead/weak/abnormally behaving fish present? If yes, see additional information/clinical score sheet.
 Clinical signs of disease observed? If yes, see additional information/clinical score sheet.
 Gross pathology observed? If yes, see additional information/clinical score sheet.
 Diagnostic samples taken?

UNI/REG only - if unable to carry out intended visit detail reason below:

Additional Case Information:

Case paperwork completed by [REDACTED] on 14/10/2020, Inspection by [REDACTED] on 20/10/2020

PD (SAV 5) reported in stock earlier in the year but not causing issues some AGD treated with peroxide

Mortality event had not been reported earlier in the year as site contact thought only unexplained events were to be reported. 2020, week 30 1.95% 1,322 Ardessie A, AGD treatment with peroxide resulted in increased morts, background PD considered a contributing factor.

Mortality data collected for the Ardessie B site during the inspection, 2020 week 30 Ardessie B 2.68% 3417 AGD treatment with peroxide resulted in increased morts, background PD considered a contributing factor.

Site inspected and VMD sampled by [REDACTED] - Fish looked health and feeding well. Very little fouling on nets. A few mature fish spotted but no health concerns observed.

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

BUSINESS No	FB0447	DATE OF VISIT	20/10/2020
SITE No	FS0517	SITE NAME	Ardessie A
INSPECTOR	██████████	CASE No	20200445

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

The above site was visited in accordance with the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015. Samples were taken to be analysed for veterinary residues.

The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009

Records

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated.

Medicine records were inspected and found to be adequately maintained.

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

Mortality levels had exceeded the reporting criteria since the last inspection and had not been reported to the Fish Health Inspectorate. I would like to remind you of the industry agreement in relation to mortality reporting as detailed in A Code of Good Practice for Scottish Finfish Aquaculture

R20

Please contact myself or the duty inspector should you require any assistance or clarification in implementing any requirement or recommendation detailed in this report.

Signed:

Date: 26/10/2020

Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Marine Scotland website at <https://www.gov.scot/publications/fish-health-inspectorate-service-charter/>
